The extra components are essential elements to complete every wellness area, **enriching and defining the Wellness experience** with both style and functionality.

*Spa
accessories*

The accessory line designed for the spa

A **complete range of accessories** to make the most
of your moment dedicated to well-being.

All the accessories are designed to **enhance the Wellness
experience** inside saunas and steam bath. From the essentials
to perform a traditional Aufguss ritual, like **bucket and ladle**,
to the **ergonomic headrests**.

All that people need, to live every moment
in the spa to the fullest.

Ladle

LADLE WITH BAMBOO-HANDLE

The ladle is an ever-present element inside saunas.
Realised with **natural materials**, it features a **bamboo handle and an aluminium bowl**, as well as a sophisticated design with neat, simple lines. It is **essential for the Aufguss ritual** - "the steam release", a ritual of well-being and purification.
Matching set with the bucket.

Birch whisk

AN ANCIENT NATURAL REMEDY

The ancient sauna experts taught us that tapping the body with a birch whisk, which has first been dried and then moistened - is the best way to **re-activate blood flow, favour perspiration, and open up the skin pores** during the session inside the sauna.

Sauna set

BUCKET, LADLE AND BIRCH WHISK

The centuries-old tradition of the Finnish sauna requires **specific accessories and techniques** to make the most of it. The **right set of accessories** is a must-have: an aluminium bucket with a bamboo handle, a ladle with an anodized aluminium bowl and heat-treated bamboo handle, a birch whisk to tap the body.

Headrest

FUNCTIONAL DESIGN AND UTMOST COMFORT

Innovative design and exclusive allure. A functional headrest that allows for a correct and complete stretching of the back and neck, making the stay in the sauna even more pleasant.

This product is characterised by an **ergonomic shape, thanks to the four pads** that can rotate separately and accommodate the nape comfortably. The height of the pads was designed to ensure a posture of the cervical spine that **allows relaxation of neck and shoulder muscles.**

Textile

Embracing wellness

Spa linen for a complete
Wellness experience.

Our textiles are the **utmost expression of softness, elegance, and function.** Towels, bathrobes and pestemals that are impeccable in style; realised with high-quality materials; resistant to intense heat; and beautiful for a long time.

TEXTILE

Pestemal

COTTON TOWEL

The pestemal is a woven fabric cloth that has been used since ancient times to **wrap the body inside hammams**. Soft and highly absorbent, it dries quickly and its 100% natural and breathable cotton offers a warm and cosy sensation.

It offers **freshness and comfort**, allowing you to enjoy the benefits of heat, without having to wear synthetic swimwear. It can be used in the sauna, in the steam bath and for the following cold reactions, and replaced with a dry and warm bathrobe during the relaxation sessions.

Cosmetics and wellness

All that allows people to live
a multi-sensory wellness experience.

Embracing fragrances and **specific cosmetic** products which
allow to **maximise** the effectiveness of every **Wellness program**,
offering authentic **psycho-physical relaxation**.

Epsom salt

FOR DEEP RELAXATION

Known for its multiple uses in the therapeutic area, Epsom Salt is considered a **great remedy against the swelling of ankles and legs**, and is an effective solution to relax arms and legs, **relieve muscle tension** and promote blood flow. It is rich in epsomite - that is, magnesium sulphate heptahydrate that favours the elimination of toxins, the relaxation of the nervous system and the reduction of possible swelling.

Epsom Salt has a **naturally soothing and exfoliant effect**, and its quite distinct crystals are ideal to be used in the bathtub, to have a body scrub or, in larger amount, to recreate a pleasant sensation of **floatation in the bathtub**.

Fragrances

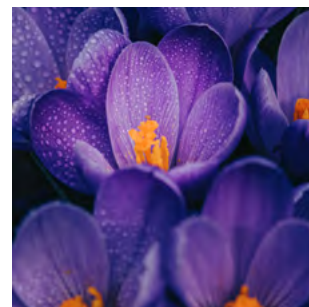

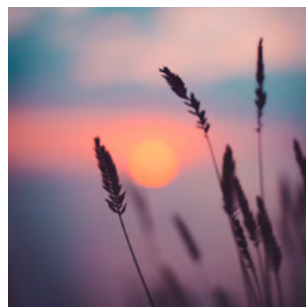

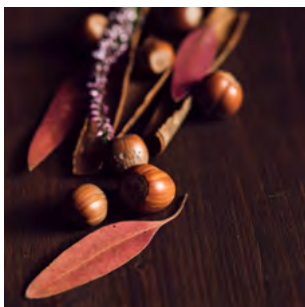

The power of fragrances

Perfume produces imperceptible vibrations in people's mind,
reawakening its irrational part.

Fragrances can bring back long forgotten memories, as if they happened only yesterday. The abundance of details of these memories proves the immense power of a single fragrance.

Perfumes have a huge impact on psyche, thanks to the signals sent from the olfactory nerve to the brain, and act on the vegetative nervous system, improving both mood and cognitive function. Specific types of fragrances increase or decrease heart rate, others favour sleep, or give energy, or induce calm.

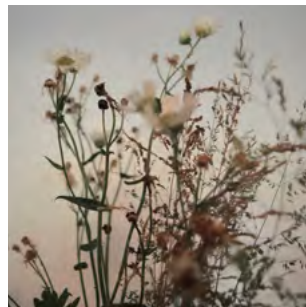

Fragrances for the sauna, steam bath, Mediterranean bath and shower

CERTIFIED PRODUCTS FOR PERFECT
EQUIPMENT MAINTENANCE

Thanks to their **very balanced and certified dilution formula between water, alcohol, and essential oils**, our fragrances **ensure an average 25% saving on consumption and olfactory perception greater by 30%** than the typical products on the market. They not only offer an extraordinarily pleasant olfactory experience, but they are also **safe on the skin, hypo-allergenic and free of preservatives and emulsifiers**.

We offer an extremely wide range of options with over 20 different types of fragrance, compatible with the automatic dosing devices for steam bath, showers and Mediterranean bath, as well as sauna fragrance concentrates.
